Patent No.: 6,838,192

Issue Date: January 4, 2005

Inventor(s): Satoru MIYASHITA; Hiroshi KIGUCHI; Tatsuya SHIMODA; Sadao KANBE

Title: METHOD OF MANUFACTURING ORGANIC EL ELEMENT, ORGANIC  
EL ELEMENT, AND ORGANIC EL DISPLAY DEVICE

Docket No.: 101050.01

**SECOND REQUEST FOR CERTIFICATE OF CORRECTION UNDER RULE 323**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

It is respectfully requested that a Certificate of Correction be issued in order to correct the errors specified in the attached copy of Certificate of Correction Form PTO-1050.

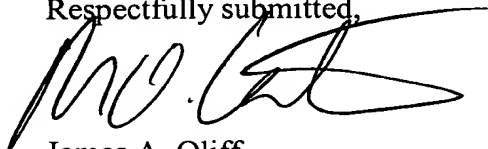

Obvious typographical errors are corrected to make the claims internally consistent. Claim 1 is corrected to correct obvious typographical errors and to insert "the" before "first electrodes" as "first electrodes" was previously recited. Claim 2 is corrected by inserting "ones of the" before "first electrodes" as "first electrodes" was previously recited, and by replacing "the luminescent layers" with "the at least one luminescent layer" because the claim elsewhere refers to "at least one luminescent layer." Claim 3 is corrected by replacing "for the luminescent layer" with "for one of the luminescent layers" because "a plurality of luminescent layers" is elsewhere recited in the claim. Claim 3 is further corrected by removing various recitations of "the" for proper antecedent basis. Claim 4 is corrected because "organic compound" was not previously recited. An obvious typographical error is corrected in claim 6. Claim 8 is corrected by replacing "an organic EL element" with "an organic EL device" for consistency of the preamble with its independent claim 3.
